Features

- One-piece copper bar structural design ;
- Copper plate inside in High conductivity;
- Environmental protection and fire retardant materials.
- With Smart USB port for charging(Output:5V, 2.1A), suitable for Smartphones, Pad, MP3/MP4, digital cameras and other digital products.

Specifications

- MAX2500W-MAX10A,250V~

	USA 2 Pin	South Africa	U.K.	Germany	Australia	USA
Apply plug						

Warning

- **DO NOT** put power strip in the wet surroundings.
- **NEVER** connect electrical devices, telephone, network or coaxial wiring with power strip during lightning and storming.
- **DO NOT** open power strip in any reason.
- Please keep children away from this product.

Why Copper?

Copper is the standard by which electrical materials are rated and conductivity ratings are expressed as a relative measurement to copper. Except Silver, copper has the highest conductivity ac Standard(IACS)
