### KITCHEN SCALES VT-8016 CA

The scale is used for weighing dry, liquid and granular products.

#### DESCRIPTION

- 1. Weighing platform
- 2. ON/OFF/tare button «ON/TARE»
- 3. Display
- 4. Measurement unit selection button «UNIT»
- 5. Battery compartment lid
- 6. Hanging loop

#### RECOMMENDATIONS FOR CUSTOMER ATTENTION!

Before using the unit, read these instructions carefully and keep them for future reference.

Use the unit for intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakage and cause harm to the user or damage to his/her property.

Handle your scale with care, as it is a precision instrument, do not subject it to high or low temperatures, high humidity, never expose it to direct sunlight and do not drop the scales.

Avoid getting of liquid into the scales body, this appliance is not waterproof. Do not store or use the scales in a room with high humidity (above 80%), make sure that the scales does not come into contact with water or other liquids as this may cause failure of scales indication or its damage.

Avoid getting of liquid into the scales body, this appliance is not waterproof. Do not store or use the scales in a room with high humidity (above 80%), make sure that the scales does not come into contact with water or other liquids as this may cause failure of scales indication or its damage.

Avoid getting of liquid into the scales body, this appliance is not waterproof. Do not store or use the scales in a room with high humidity (above 80%), make sure that the scales does not come into contact with water or other liquids as this may cause failure of scales indication or its damage.

Place the scales on a flat steady surface.

Do not put products on the weighing platform if their weight exceeds the max. capacity of 10 kg, remove products from the scales immediately to prevent its damage.

This unit is not intended for usage by children under 8 years of age.

This unit is not intended for usage by people (including children over 8) with physical, neural and mental disorders or with insufficient experience or knowledge. Such persons may use the unit only if they are under supervision of a person who is responsible for their safety and if they are given all the necessary and understandable instructions concerning the safe usage of the unit and information about danger that can be caused by its improper usage.

If the scales works improperly, try switching the power off; to do this, open the battery compartment lid (5) and remove the battery. After a while insert the battery back to their place and switch the scales on by touching the «ON/TARE» button (2).

The symbol «**unit**» on the display (3) indicates that the weight of the products on the scales is unstable or the scales is placed on an unsteady surface. Place the scales on a flat steady surface.

Do not leave children unattended to prevent using the unit as a toy.

For children safety reasons do not leave polyethylene bags, used as packaging, unattended.

**Attention!** Do not allow children to play with polyethylene bags or packaging film. **Danger of suffocation!**

Transport the unit in the original package only.

Keep the unit out of reach of children and disabled persons.

Do not immerse the scales into water or any other liquids, do not wash it in a dishwashing machine.

Keep the scales away from children in a dry cool place.

#### CLEANING AND CARE

• Clean the scales with a soft, slightly damp cloth and then wipe it dry.

• Never use abrasives or solvents.

• Do not immerse the scales into water or any other liquids, do not wash it in a dishwashing machine.

• Keep the scales away from children in a dry cool place.

#### IMPORTANT

##### Electromagnetic compatibility

The electronic scales can be sensitive to electromagnetic emission of other units located in close proximity (such as mobile phones, portable radio transmitters, radio controllers and microwave ovens). If signs of such emission appear (false or inconsistent date indication on the display), relocate the scales or switch the source of interference for some time off.

#### USING THE Scales

After unit transportation or storage under cold (winter) conditions, it is necessary to keep it for at least three hours at room temperature.

• Unpack the scales, remove any stickers that can prevent unit operation.

• Clean the weighing platform (1) and the scales body with a soft slightly damp cloth, and then wipe dry.

#### Battery installation

• Open the battery compartment lid (5) and insert a CR2032 battery (supplied with the unit), strictly following the polarity.

• Install the battery compartment lid (5) back to its place.

**Note:** If there is an isolation insert in the battery compartment, open the battery compartment lid (5), remove the isolation insert and install the battery compartment lid (5) back to its place.

#### TECHNICAL SPECIFICATIONS\*

CR2032-type battery - 1 x 3 V

Maximal capacity: 10 kg

Minimal capacity: 3 g

Division value: 1 g

\* For household kitchen scales the value of error is not specified, so it is not stated in technical specifications.

The term «value of error» is used for industrial, analytical and medical scales. This scales has pattern approval certificates which confirm the measurement accuracy. Moreover, specially appointed organizations perform annual «measurement accuracy confirmation» (checking) to confirm the scales accuracy.

The manufacturer reserves the right to change the unit specifications without a preliminary notification.

#### Unit operating life is 3 years

#### Guarantees

Details regarding guarantee conditions can be obtained from the dealer from whom the appliance was purchased. The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

**Notes:**

— The symbol «**0**» shown on the display (3) indicates that you can start weighing.

— If the indications on the display (3) are not equal to zero, touch the «ON/TARE» button (2), the indications will be set to zero. Select the required weight measurement units by touching the button (4) «UNIT», the following symbols will appear on the display (3):

— «g» – weight of product (products) in grams;

— «lb oz» – weight of product(s) in pounds and ounces;

— «oz» – weight of product(s) in ounces;

— «ml» – water volume in milliliters;

**Notes:**

— Water volume is measured based on average water density values stored in the scales memory, that's why the calculated water volume may differ from the actual value.

— To weight liquid and granular products, place an appropriate container on the platform (1) and then set the display indications to zero by touching the «ON/TARE» button (2). The tare symbol «TARE» will appear in the bottom left corner of the display (3) if the container weight is more than 100 g.

2. Put the ingredient(s) on the weighing platform (1). The weight of the ingredient(s) will be shown on the display (3), according to the selected measurement units.

3. To switch the scales off, remove the ingredients from the platform (1) and touch the «ON/TARE» button (2) for 2 seconds.

**Note:**

— The scales will be switched off automatically after 45 seconds of non-operation.

#### TARE FUNCTION

If you want to measure the weight of several ingredients without removing the previous ones from the platform (1), proceed as follows.

1. Place the scales on a flat surface.

2. To switch the scales on, touch the «ON/TARE» button (2), the symbol «**0**» will appear on the display.

3. The scales will be switched off automatically after 45 seconds of non-operation.

#### DISPLAY FUNCTION

If you want to measure the weight of several ingredients without removing the previous ones from the platform (1), proceed as follows.

1. Place the scales on a flat surface.

2. To switch the scales on, touch the «ON/TARE» button (2), the symbol «**0**» will appear on the display.

3. The scales will be switched off automatically after 45 seconds of non-operation.

#### INSTRUCTIONS FOR USE

If you want to measure the weight of several ingredients without removing the previous ones from the platform (1), proceed as follows.

1. Place the scales on a flat surface.

2. To switch the scales on, touch the «ON/TARE» button (2), the symbol «**0**» will appear on the display.

3. The scales will be switched off automatically after 45 seconds of non-operation.

#### TECHNICAL SUPPORT

If you have any questions, please contact our customer support service.

1. Place the scales on a flat surface.

2. To switch the scales on, touch the «ON/TARE» button (2), the symbol «**0**» will appear on the display.

3. The scales will be switched off automatically after 45 seconds of non-operation.
