realme S Pro Watch

Thank you for choosing realme Watch S Pro. Please read this manual carefully before using the product and keep the manual for further reference. Illustrations of the product, accessories, and user interface in the manual are for reference purposes only, as the product is being updated and upgraded. There may be some differences between the actual product and the schematic. Please refer to the actual product.]

Overview

General Instructions

The new realme Watch S Pro (hereinafter referred to as the watch) is an ultra-thin, big screen watch with long-lasting battery life. It is capable of measuring your blood oxygen levels, tracking your heart rate, sleep and workout activities, as well as serving as an information assistant and other smart tools. With its fashionable design, big screen display and the ability to track your workout and health accurately, the Watch is the perfect companion for your daily fitness and leisure activities.

Features:

- Bluetooth BLE 5.0
- Full touch screen with 2.5D glass cover
- A 1.39-inch AMOLED display with 454*454 pixel
- Daily tracking: steps/calories/heart rate
- Meditation Mode
- Sleep monitoring
- Call/message notifications
- Swimming style identification
- Find your phone
- Music control
- Camera control

Instructions

Installing the App and Pairing

- Installing the App
Please turn on the Bluetooth of mobile phone and use your phone to scan the QR code shown on the watch screen to download and install realme Link app. You can also scan the QR code below or go to app store to

download realme Link app.

<https://www.realme.com/in/app-download#realmeLink>

- Binding and Connecting
Go to the realme Link app, tap “Add device” and bind the watch according to the instructions.

Tips:

Before binding, please make sure the Bluetooth of your mobile phone is turned on, and your phone is properly connected to the watch. If you fail to find the watch when trying to add it, or unable to connect to it when using it, reset the watch to factory default settings and then add it again in the app.

User Guide

Please find more details about instruction from realme Link app -> Setting -> User guide.

To view Regulatory Information on your watch: go to Settings page -> System -> Regulatory Information.

Wear Properly

To ensure the accuracy of the heart rate measurement, please wear the watch about 2cm from your carpal bones and make sure the heart rate sensor can collect data normally.

Low Battery

Please charge the watch immediately if the battery power is lower than 10%. The watch will vibrate once and a pop-up window will appear as below, tap ✓ to enter the Power Saving Mode, or X back to the latest state.

Charging

- Place the watch on the charging base, and make sure the charging contacts on the back of the watch are properly aligned and attached to the metal pins on the charging base.
- Connect the charging base to a standard, certified USB charger.

Tips:

- When not used for a long time, the watch may fail to power on, in this case, you need to charge the watch for about 2 minutes before the charging icon appears on the screen.
- Before charging, gently wipe the charging contacts clean and dry to get rid of sweat and moisture.
